1. Write a program to print the first N natural numbers.

Input : 10 , Output : 1 2 3 4 5 6 7 8 9 10

2.Write a program to print the first N even natural numbers.

Input : 10 , Output : 2 4 6 8 10

3. Write a program to print the first N odd natural numbers.

Input : 10 , Output : 1 3 5 7 9

4. Write a program to print first N multiples of 3.

Input : 7 , Output : 3 6 9 12 15 18 21

5.Write a program to print first N multiples of 5.

Input : 5 , Output : 5 10 15 20 25

6.Write a program to print all the multiples of 2 till N.

Input : 15 , Output : 2 4 6 8 10 12 14

7. Write a program to print all the numbers which are multiples of either 2 or 3 till N.

Input : 15 , Output : 2 3 4 6 8 9 10 12 14 15

8. Write a program to print all the numbers which are multiples of either 2, 5 or 7 till N.

Input : 15 , Output : 2 4 5 6 7 8 10 12 14 15

while loop tasks

1. Find the sum of all digits in a positive integer.

Input : 123456789 , Output : 45

2. Count the number of digits in a positive integer.

Input : 123456789 , Output : 9

3. Write a program to find factors of a given number.

Input : 20 , Output : 1 2 4 5 10 20

4. Write a program to count factors of a given number.

Input : 20 , Output : 6

5. Write a program to find whether the given number is a prime number or not.

Input : 11 , Output : Yes prime number

6. Print all prime numbers from 2 up to and including 'n'.

Input : 15 , Output : 2 3 5 7 11 13

7. Write a program to print if a number is an Armstrong number or not. 153 is an Armstrong number. 13+53+33 = 153.

8. Print the common factors of two positive integers n and m. Input : 8 12 , Output : 1 2 4

9. Write a program to get the Fibonacci series between 0 to 50.

10. Write a program to find the factorial of a given number.

11. Write a program that reads a set of integers, and then prints the sum of the even and odd integers.

Input : 123456 Output : odd sum : 8,even sum : 12

12. Write a program to check whether the given number is palindrome or not. Palindrome is a number when reversed it gives the same number.

Example 1: If the number is 121 Reverse is 121 Hence, 121 is a Palindrome

Example 2: If the number is 438 Reverse is 834 Hence, 438 is not a Palindrome
