

if task

Check if number is greater than 100

Check if number is less than 0

Check if a character is 'A'

Check if a number is divisible by 7

Check if marks are exactly 100

Check if a string length is more than 5

Check if a number ends with digit 5

Check if salary is equal to 25,000

Check if user entered correct PIN (only check, no else)

if-else task

Check if number is greater than 50 or not

Check if number is divisible by 9 or not

Compare two strings (equal or not)

Check if age is above 60 (senior) or not

Check if number is two-digit or not

Check if character is alphabet or not

Check if total purchase > 1000 for free delivery

Check if student attendance $\geq$ 75% or not

Check if username matches stored username

Check if number is multiple of 4 or not

Check if password equals "admin123"

if-else if- else task

Determine season based on month number

Check type of quadrilateral (square, rectangle, other)

Find smallest of three numbers

Assign performance rating (Excellent, Good, Average, Poor)

Find largest among four numbers

Classify temperature (Freezing, Cold, Warm, Hot)

ATM balance check / withdraw / deposit options

Check number range (0–10, 11–50, 51–100, >100)

Identify input as positive, negative, or zero

Check cricket score level (Duck, Half-century, Century)

Categorize internet speed (Slow, Medium, Fast)

Determine transport type (Bike, Car, Bus, Truck) by wheels

Categorize exam result (Fail, Pass, Merit, Distinction, Topper)
